

Recommendations

EPPO

- promotion and use of **EPPO Codes** at international level
- host a meeting for **exchange of views between residue and efficacy experts** regarding crop grouping taking into account other international activities in crop grouping

EPPO

- **provide platform** (e.g. exchange of technical information including work on databases and their maintenance, manage fund, facilitate group activities), when resources could be made available
- **further harmonisation** of data requirements for efficacy
- **grouping**: guidance document including EPPO codes
- Continue and start new work on **standards** and **guidelines** (e.g. mutual recognition)

EPPO – extrapolation, crop and pest grouping

- Need harmonised crop and pest groupings, relevant for efficacy and in line with MRL list, by taking into account work on global level.
- "principles for extrapolation“ as well as a comprehensive list (to enable extrapolation beyond a list).

Commission

- **clear procedure** for Minor uses mutual recognition
- a streamlined system for minor use authorizations (description, trials, dbases
- Further develop PSD approach to residue extrapolation
- **legal provisions** (e.g. liability, provision for additional data protection for the whole application, if minor uses are included, fast-track procedure)
- Organization of work within the EU, explore activities and possibilities for collaboration outside the EU

Commission funding for minor uses

- An IR-4 type system in EU
- Make available and maintain a dbase of Minor use trials
- dbase of Minor uses and authorizations

National authorities

- **adoption of guidance documents** regarding EPPO efficacy standards and explore the consequences on additional data requirements
- **specific incentives** for Minor uses (e.g. reduced/no fee, data protection, simplified and predictable procedure...)
- **participate in joint projects, make expertise and funding available to contribute to international activities**
- **communicate** the national activities on minor use work (also in English)

National authorities

- **positive and transparent communication**
- **maintain a priority list of minor use gaps**
- **provide information** for dbases supporting minor uses
- **Use a common template** with standard information for the EU Technical Group collaborative projects and also a standardised report
- **Promote an atmosphere of trust (e.g. between regulators)**

Others

- **Support funding (all stakeholders)**
- **Support projects by providing resources**
- **Communicate**
- **Nominate contact points for minor uses**
- **Promote international outlook for minor uses**
